* Claude Code

```
) I want to build a calendar website for concerts. On the left, a column of dates, today at the top. On the right, an overview per day showing which concert is happening where. We have images for each show, so use a tile grid people can scroll through. As they scroll, the day in the sidebar should automatically follow along. Clicking a date in the sidebar should also jump you to that day. The data already exists, we built an API for it in our other project, the photo pass system. For the design, use the front-end design skill. I want something simple. Dark, editorial style. If anything is unclear, ask me before you start. MAKE NO MISTAKES.█
```

DeMorgen

★★★★☆

"Bazart in de Lotto Arena: Mathieu Terryn bespeelt het publiek op een manier waar menig popster jaloers op mag zijn"

De Standaard

★★★★☆

"Bazart in de Lotto Arena: zo teder dat zanger Mathieu Terryn even zijn kluts kwijt leek"

HUMO

★★★★☆

"Bazart is helemaal terug, bewijzen Mathieu Terryn en co. in de Lotto Arena. En hoe"

Dansende Bazen

"Bazart @ Lotto Arena: Geen nood aan een nooduitgang"

Daily concertje briefing

Daily concertje.be briefing + editorial pipeline (analytics, calendar reconciliation, draft generation).

Active Next run: tomorrow at ~8:00 AM

Instructions

You are running the daily concertje.be briefing and editorial pipeline. There is no human present — execute autonomously, make reasonable choices, note them in your output. Do not perform any "write" actions outside the workspace folder (no posting, publishing, or sending). The only filesystem writes you should make are to `/Users/kevinmeyvaert/Documents/concertje-blog-pipeline/`.

Workspace

- Pipeline root: `/Users/kevinmeyvaert/Documents/concertje-blog-pipeline`
- Pipeline folder: `/Users/kevinmeyvaert/Documents/concertje-blog-pipeline/`
- `calendar.md` — living editorial calendar (read, then update)
- `research-log.md` — append-only daily snapshots (prepend new entry)
- `drafts/` — where generated drafts go
- `archive/` — shipped drafts (don't touch)
- Article skill: `/Users/kevinmeyvaert/Documents/concertje-monorepo/claude/skills/concertje-article/SKILL.md` — Read this BEFORE generating any draft. It defines voice rules, research methodology, format, and output checklist. Follow it exactly.

If the workspace folder isn't mounted, call `mcp__cowork__request_cowork_directory` with path `~/Documents/concertje-blog-pipeline`.

SEO / search opportunities

Web searches used: 5 of 10 (Paris Paloma research × 3 + Belgian festival landscape × 1 + Paris Paloma bio verification × 1).

Les Nuits Botanique starts TODAY (May 14-31) with Mura Masa, Jewel Usain, Liniker. No Concertje content surfacing on this yet, distribution-only window. Couleur Café 2026 (Jun 26-28) lineup includes Ezra Collective, Pongo, Thee Sacred Souls — six weeks out, ranking window in the late-fringe-to-tight band. Werchter Boutique 2026 Jun 27 (Katy Perry, Pitbull, Mika) — no Concertje surface yet.

The clear unfilled ranking opportunity remains a Couleur Café day-guide or a "wie staat er op Couleur Café 2026" preview if Kevin wants to ride the 6-week window.

LET'S TALK :))
